To whom it may concern.

I understand that M.E H.L has been granted permission for a toxic waste facility situated in The Naul ,Co Dublin.

I wish to make a submission urging that a licence will not be granted for this waste disposal facility.

The Naul is a renowned potato and vegetable growing area. These products are sold and distributed throughout the area and into the markets in Dublin.

There would be considerable risk of environmental contamination from this toxic waste facility.

Yours Sincerely,
