Your Ref: P0378-02

30th August 2011

Dear Ms Bolger

Re IPPC Licence Application for Quinn Cement, Ballyconnell, Co Cavan. Use of 'Solid Recovered Fuel' (SRF) to Replace 55% Coal Burn.

Rivers Agency (Agency) received a correspondence on the 5th of August 2011 from Northern Ireland Environment Agency (NIEA) regarding the above. The Agency is one of NIEA Statutory Consultees and as such is required to comment on the above.

From a drainage aspect the Agency has no comments to make as the proposed works would appear not to affect drainage in Co. Fermanagh.

Rivers Agency does not hold any Ecological or Environmental Information for this site however NIEA may hold this information.

Rivers Agency would request that watercourses in the area should not be restricted and no spoil or sediment is allowed to enter or lessen the width of the watercourse(s) during the construction process of the above proposals.

If you have any further queries please do not hesitate to contact me

Yours faithfully

G Thompson
