**Re: Reg. No. P0301-02 – IPPC licence review Diageo Ireland, St. James' Gate, Dublin 8.**

Dear Ms. Smith,

With regard to the above IPPC review and previous comments made, IFI Blackrock has noted highly elevated Total Phosphorus (TP) levels for 2010 recorded in Table 7 (Ambient Water Monitoring at ASW-2 and ASW-3) since we made our first submission. We would be grateful if the applicant could review the data and determine the accuracy or otherwise of these TP levels in the river.

Yours sincerely,

Brian Beckett
