RE: Certificate of Authorisation for Carcur Closed Landfill Application Register No. H0002-01. Response to request for further information issued by the EPA office of Climate, Licensing and Resource used dated 8 September 2011

Dear Sir Madam

I recently downloaded a copy of an application from Wexford County Council on behalf of Wexford Borough Council

I would like to bring to your attention to Appendix 1 LW11-080-04-001-0 Foreshore Intrusion Map.

There is a section of this application which is on my mothers land.

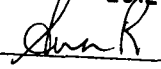

I also cannot believe that the map is clearly not an up to date map that Fehily Timmony Consultants are using. Did they not go out to the site before doing up their submission. The aerial view is years out of date also and finally this map is also contradictory of the Wexford Town Development 2009/2015.

I would appreciate that you would look into this matter before reaching any decision to this application.

I wish you to acknowledge this letter and I await your response.

Yours sincerely

Jacinta Somers
