Johnstown Castle Estate
Co. Wexford.

REG. NO. P 0516-03

Dear Sir,

With reference to your letter dated 8th May in respect of Boliden Tara Mines and the proposed determination on the review of IPPC licence, we Thomas and Frances Rogers of Mullaghmore, Boyerstown, Navan Co. Meath, wish to inform you that we hereby lodge an objection to the issuing of this licence on the following grounds:

- (1) The level of blasting, to which we are being subjected at present is becoming intolerable. The stress that this is causing us is immense.
- (2) The daily pollution coming from the nearby shaft is also causing us concern.
- (3) The blasting seems to be causing damage and we have noticed a number of cracks appearing in the walls of our home and outhouses.

We are old age pensioners now and have enjoyed an idyllic quality of life here for over 45 years. However with the current operations by Boliden Tara Mines we no longer feel safe living in our own home.

We enclose herewith the objection fee in the amount of €126.

Yours truly,

Thomas Rogers

Frances Rogers
