30<sup>th</sup> July 2012

To whom it may concern.

We Peter and Diane O'Leary wish to make an additional submission on the licence review regarding KWD Recycling Ltd registration number W0217-02.

Further to our correspondence dated the 23/11/2011 to your office, we would like to add the following.

- The increasing annoyance we are experiencing from this recycling unit on a daily basis. The volume of HGVs/trucks and general movement of trade traffic to and from this facility, has increased dramatically over the past twelve months.
- My children and I are regularly awoken between the hours of 4am and 5am due to the movement of HGVs/Trucks from the KWD depot. As you can imagine this is causing great distress to us as a family. We are very concerned that if KWD were to be granted an increase to their existing tonnage what effect this would have on us.
- The increase in the volume of HGVs/trucks is also a safety issue because of the speed they are travelling at, morning to night.
- We have evidence that this facility is operating outside its current licensing agreement including Bank Holidays etc..

When making a decision on the licence review for this facility we hope you will take these and our previous concerns into consideration.

We object strongly to KWD Recycling Ltd., being granted an increase to their existing tonnage. We would also request that it would be included in their licence agreement that no HGVs/truck etc. leave the plant before a reasonable hour, for example 07:30hrs.

Kindest regards

Peter and Diane O'Leary
