Re: Review Application from Lennon Quarries Limited in relation to a facility at Tallagh, Belmullet, Co. Mayo

Dear Ms. Fay,

The above review application received by this service on 30 August has now been considered. The assessment is based on a review of documentation submitted to this office on 30 August by the Environmental Protection Agency and a site visit conducted on 13 September.

In addition to the Environmental Health Service this application was referred to the Emergency Planning, Estates and Health Protection departments in the Health Service Executive on 28 August and no comment has been received to date.

The Environmental Health Service in Mayo has no history of complaints in relation to this facility. It has taken all commitments to future actions in the enclosed documentation including mitigation and further testing as read and all data results have been accepted as accurate. No additional measurements were undertaken. There are no further comments to make as a result.

All correspondence or any queries with regard to this report including acknowledgement of this report should be forwarded to me at the above address.

Yours sincerely

Catherine Cosgrove
Principal Environmental Health Officer
