**Subject:** Objection to Spoil dumping in Dublin Bay

Dear Sir/Madam,

It is with great concern that I voice my opinion to the dumping of spoil in Dublin Bay. As a scuba diver and user of the sea I cannot see how the tidal currents will not transfer the spoil further afield and onto local beaches such as Bray and Greystones. There is already far too much foreign matter dumped into the Irish sea which is affecting the local marine life. As a scuba diver, diving the East coast of Ireland I have a first hand experience of the decline in marine life and increase of rubbish of the past 5 years. For the good of the environment and our planet let's look after our seas for the future generations instead of letting corporate institutes flex their cash and do as they please.

Regards

---
