Subject: Dublin Bay Dumping

Dear sirs,

I would like to object to the issuing of a dumping permit for Dublin City Council for the following reasons.

1. Ireland signed a treaty to ban all dumping at sea, ground up limestone is not a natural material allowed by this treaty.
2. The proposed dump site is an Special Area for conservation, we need to ensure the area is indeed conserved and not turned into a dump.
3. Dublin City Council got planning permission to constructs an undersea tunnel. Part of the Planning dictated where and how the spoil was to be handled. This application is not in line with the Planning conditions. The DCC must return for a new Planning permission if the dumping of the spoil is to be at Sea. The EPA does not have the right to overturn the Planning permission conditions

Yours sincerely,

Ronan Farrell
