Waste Licence Application

Name & address of applicant: Advanced Environmental Solutions (Ireland) Limited
Cappancur Industrial Estate
Cappancur
Tullamore
Co. Offaly

Location of facility: Cappancur Industrial Estate
Cappancur
Tullamore
Co. Offaly

Reference number: W0104-03

National Grid reference: E2356; N2256

Comments:

This application is to increase the tonnage of waste received at the site from 50,000 tonnes / annum to 60,000 tonnes / annum and to reduce the tonnage of hazardous waste from 200 tonnes / annum to zero tonnes / annum.

Consent of EPA required for any other use.

It is also proposed to facilitate the future connection of treated effluent from the on-site wastewater treatment plant and wash water and rainwater run-off from operational areas to the municipal foul sewer, instead of this treated effluent being tankered to the Local Authority Waste Water Treatment Plant

I would recommend that any waste licence granted would include a requirement to monitor the following:

1. Noise levels from the proposed operation
2. Air quality at the proposed facility to include monitoring of dust, odour etc
3. Rodent and vermin control at the proposed facility
