Applicant: Shell E & P Ireland.

I am a native of this town & reared in this littlest quiet, peaceful & law-abiding place. Since the arrival of Shell in this area that I call home, to take over the running of the ill-conceived, over-hyped and potentially catastrophic operation known as "The Corrib Gas Project" all has changed, and changed utterly.

I have read the submissions of Monica Muller & Peter Sweetman which are on the EPA website at:

I fully agree with these submissions and wish to adopt them as part of my submission.

Signed: Martin Harrington
