

Copy to Noleen Keavey,
E.P.A. Wexford, 05-07-2013

Killytowney, Submission No. 6

Killeshandra,
Co. Cavan, $\frac{04}{07}$
2013

PO800-03

Mr. Keelan Reynolds, E.P.A
Regional Inspectorate,
Castlebar,
Co. Mayo.

Dear Mr. Reynolds,
Initials: Ch

Open Web Doc ☒

I received your letter dated 01-07-2013,

Yesterday and wish to say thank you
for explaining how E.P.A. functions etc.
With reference to page one, bullet point
3 of same, how do we access this
information regarding conditions, please?
I am getting the impression from reading
your correspondence, that the general
public in the vicinity of Lakeland Dairies,
Killeshandra, are expected to 'police' the
operation themselves.

Am I correct in making this assumption
or not?

Thank you for information on Light emissions.
In my correspondence to yourself, dated: $\frac{24}{06}$
2013,
I made it quite clear that noises causing
problems at that particular moment in
time "were at weekends — four in a row"
and "were, again, coming from the direction
of The Casein Plant," Lakeland Dairies, Killeshandra.

2.

I repeated all this to you verbally, by phone on Monday, 24-06-2013.

I do not understand then, why your team monitored noise, the very next morning at Lakeland Dairies, (ie Tuesday, 25-06-2013) — when The Casein Plant was definitely not in operation!!

This does seem a futile exercise to me!

In my document to you, dated: 24-06-2013, I asked a specific question regarding a deflector at Lakelands.

I would like an answer, please, to my query.

Also, in my supplementary material to you, dated: 24
06
2013, I requested that you check on the number of silencers in The Casein Plant that are working effectively and, those not working effectively and, report back to us in writing, as soon as possible.

Please, do this. It is very important and

Must be carried out by a qualified and competent person, in order to have a satisfactory response and outcome.

I again emphasise my disappointment and frustration at the fact that E.P.A. do not have any personnel available/on duty/on call at local level, from 5:00 pm. on Friday evenings, until 9:00 am. on Monday mornings.

It is obvious, that this is a tremendous drawback, as we have been suffering severe noises from Lakeland Dairies, which were noticeably worse at week-ends, over the past number of years. We await your written response.

Owen + Noreen Burns.
