

Kilcolman
Asdee,
Kilrowel
Co. Kerry

4th Nov 2013

Please include this log of
smells from factory Grandon Products
for October:

On Friday 4th October we had
terrible odour $\frac{3}{4}$ in the yard and
all around our dwelling house.
On Saturday 6th Oct I had a
very bad chest infection and
attended South Doc Lisrowel.

On Tuesday 8th Oct we had odour
very bad $\frac{3}{4}$ and Marie Fenner
was here to experience how bad
it was, and on Wednesday last

30th October it was $\frac{3}{4}$ in the
yard and at the dwelling house
and I now have yet another
chest infection!

How long more do we
have to breathe these awful odours.
Marie Penner was on site on
30th October Wednesday last.

Yours sincerely
E. Penner, W. Ellgott.
