Re: EPA Notification to Mayo County Council under Section 87(1E) (a) of the EPA Act 1992, as amended.

Reg. No: P0738-03: Shell E & P Ireland Ltd.

Dear Ms. Bolger,

We refer to your recent letter to Mr. Martin Keating, Director of Service, Planning, with regard to the following IED application:

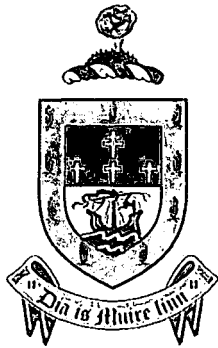

Licence Application Registration Number: P0738-03

Shell E & P Ireland Limited, Corrib House, 52 Lower Leeson Street, Dublin 2.

We hereby respond to each item as follows:

1. *State whether the activity to which the licence application relates is permitted by the grant of permissions referred to in the attached document:*

We have examined the Industrial Emissions Activity Licence application by Shell E & P Ireland Ltd and we have also examined the grant of permissions as listed in the Shell E & P Ireland Ltd application cover letter. We can confirm that the activity to which the application relates is permitted by the grant of permissions issued by An Bord Pleanála and Mayo County Council as listed.

2. *Furnish hardcopy of all documents relating to any environmental impact assessment carried out by your authority in respect to the development or proposed development to which the grant of any permissions refer.*

The environmental impact assessment for planning permission P03/3343, the parent permission, was carried out by An Bord Pleanála and the documents should be obtained from An Bord Pleanála. It was determined by Mayo County Council that each of the amending applications did not require an EIA under the Planning and Development Acts 2000 as amended.

3. *Furnish any observations your authority has in relation to the licence application.*

We have examined the Industrial Emissions Activity Licence application and we have no further observations to make in relation to the licence application.

Yours sincerely,

Iain Douglas,
Senior Planner.

pp. Martin Keating, Director of Services, Planning.
