Dear Ann,

I refer to your request for comments from the Department of Agriculture, Food and the Marine (DAFM) relating to the above-mentioned Dumping at Sea application.

Having consulted our technical advisors the Department is satisfied that this development will not adversely affect aquaculture or sea fisheries related activities, given its location.

DAFM anticipates that a foreshore application will be submitted to The Department of Environment, Community and Local Government in association with this application and further comments may issue in respect of that application

Yours sincerely
