RE: EPA Letter of Notification under Section 87(1D)(a) of EPA Acts
regarding the application of Mark McElvaney, Ballagh,
Threemilehouse.

A Chara,

With regard to the above communication this Council recommends that:

- All licenced facilities depending of off-site disposal of organic fertilisers and their agents should take account of sensitive areas identified in the County Development Plan 2013 to 2019. The licensee should demonstrate that County Development Plan objectives and policies for protection of waters are integrated into site management, landbank selection and nutrient management planning (including phosphorus application rates). The proposed use of landbanks by licensee and their agents in the catchment of water supply sources should seek approval in writing in advance from the local authority.
- A fully traceable manure movement system for off site movement of manures is provided by licensee and available for inspection.
- Areas in front of the poultry houses to be re-concreted as it is in poor condition currently.

I trust this to be in order should you have any further queries do not hesitate to contact this office.
