Dear Noeleen,

I refer to your letter dated 23rd June 2014 to Mr Kevin Stewart, DOS Planning which referenced above waste license application and which requested any comments Planning Authority may have regarding same. Comments are based on the information available to view on www.epa.ie.

The Planning Authority have no record of receiving or approving a planning application for the development proposal of the use of approx. 1,200,000 tonnes of soil and stones material for the restoration of the quarry void and recycling of inert construction and demolition material.

Based on an examination of current legislation, the proposed development by reason of its scale and potential traffic and other impacts would require planning permission.

Please acknowledge receipt of email.

For and on behalf of Meath County Council
