Re: Ballaspit Pollardstown - PAE 2014/34
And Kildare County Councils Application for
a Certificate for A Closed Landfill at
Pollardstown Refuse Depot Loughbrown Pollardstown
The Curragh Register number H0228-01

Dear Sirs.

I refer to the above application H0228-01 being
made by Kildare County Council to
the office of the environment Licencing Programme EPA.
I must object in the strongest possible manner
to the EPA granting such a Licence to Kildare
County Council for the following reasons.

No One. Kildare County Council quite evidently has been lying to the EPA for a number of years about their dumping and burying of waste at their Ballastpit site in Pollardstown The Curragh.

No Two. As enforcers of the waste laws in County Kildare it is an outrage to think Kildare County Council has such a blatant disrespect for the laws it governs. It would also seem it holds the same disrespect and contempt for the offices of the EPA and the minister for the environment and its European counterpart to which it is answerable to.

I now ask the EPA and the minister of the Environment to appoint an independent body to the Kildare County Council site in Pollardstown to access the site, dig legal holes all through the site and remove the waste that has been buried by Kildare County Council to a registered facility.

I ask for a independent body on the quiet serious grounds that Kildare County Council on paper were hiding their dumping activities and burying of waste from the EPA for a number of years.

Also with the greatest respect to the office of the EPA it should have known what was going on at that site given the fact the site is less than one hundred metres from the beginning of Pollards town Fen and the main bulk of waste buried by Kildare County Council is less than fifty metres from a river feeding into the Fen of Pollardstown.

It is also my intention to send a copy of my complaint to the Minister of the Environment and the environment Directorate of the European Commission in Belgium together with this file.

Yours sincerely,

P Munnelly
