**Re: IDA Ireland Consent to discharge trade effluent into the IDA Foul Network at the National Technology Park in Limerick.**

Dear Mr Dempsey,

I refer to your licence application to the Environmental Protection Agency at the above named Park and your request for IDA Ireland consent to discharge trade effluent into the Park drainage system. I can confirm that ownership and control of the National Technology Park, including the services, transferred from Shannon Development to IDA Ireland in January 2015.

IDA Ireland hereby grants consent to COOK Medical Ltd to discharge trade effluent into the IDA foul network provided that COOK Medical Ltd has adhered to all the covenants & conditions contained in the agreement for sale between Shannon Development and COOK Medical Ltd dated 1994. (copy enclosed)

If you have any further queries please do not hesitate to contact me.

Yours sincerely,

Paul Gavin  
Property Division  
IDA Ireland
