IRISH WATER RESPONSE

Irish Water Colvill House 24/26 Talbot Street Dublin 1

Name of Facility:

Dairygold Co-Operative Society Limited

Reg. No: P0403-03

Location Address:

Annabella, West end, Mallow, County Cork

Consent granted subject to the consent conditions outlined below.	Yes
Consent granted without conditions.	
Consent refused Note 1.	

GENERAL CONSENT CONDITIONS

- 1. The licensee shall at no time discharge or permit to be discharged into the sewer any liquid matter or thing that is or may be liable to set or congeal at average sewer temperature or is capable of giving off any inflammable or explosive gas or any acid, alkali or other substance in sufficient concentration to cause corrosion to sewer pipes, pensite k and sewer fittings or the general integrity of the sewer.
- 2. The licensee shall permit authorised persons, of the Agency and Irish Water, to inspect, examine and test, at all reasonable times, any works and apparatus installed in connection with the process effluent and to take samples of the process effluent.

ADDITIONAL GENERAL CONSENT CONDITIONS

In respect of discharges or emissions to sewers, in accordance with Section 99E of the Environmental Protection Agency Act 1992, as amended.

(Specify, if required)

3. Trade effluent discharged to the Irish Water Sewer shall be limited to milk wastes (including chemicals used) from sample bottles. A log detailing the chemicals used in the milk testing procedures and the volume discharged shall be maintained by the Licensee on a daily basis and shall be available for inspection by Irish Water on request.

Reason: To control the emissions prior to discharge

4. The Licensee shall notify Irish Water of any proposed changes in operations onsite which would cause, or be likely to cause an alteration in the volume or composition of effluent discharged to sewer.

Reason: To control the emissions prior to discharge

5. Should hot food be prepared or provided in the canteen, equipment for the removal of fats, oils and greases (FOG) shall be installed on the foul sewer from the canteen and shall be operated and maintained to the satisfaction of Irish Water. This unit shall be inspected and emptied at regular intervals and a log maintained of these inspections. This grease shall not be disposed of in the foul or surface water systems. This log shall be available for inspection by any authorised personnel representing any Body having statutory responsibility for water pollution control.

The disposal of separated FOG shall be by an approved waste contractor. An authorised contractor shall remove material for disposal and the name and disposal route shall be supplied to Irish Water on request.

Reason: To control the emissions prior to discharge

6. Non-trade effluent wastewater (e.g. firewater, accidental spillage) which occurs on-site shall not be discharged to the sewer without the prior authorisation of Irish Water.

Reason: To control the emissions prior to discharge

7. Irish Water reserves the right to recover costs associated with the conveyance and treatment of the effluent, monitoring, sampling and inspections associated with the discharge to sewer consent and/or any other charges that may be implemented in the future by the Commission for Energy Regulation.

Reason: To recover any costs incurred by Irish Water.

Section 99E of the Environmental Protection Agency Act 1992, as amended

- 99E.-(1) Where the Agency proposes to grant a licence (including a revised licence) which involves a discharge of any trade effluent or other matter (other than domestic sewage or storm water) to a sewer, it shall obtain the consent of the sanitary authority in which the sewer is vested, or by which the sewer is controlled, to such a discharge being made.
- (2) Where consent is sought in accordance with subsection (1), the Agency may specify a period (which period shall not in any case be less than 4 weeks from the date on which the consent is sought) within which the consent may be granted subject to, or without, conditions or refused; any consent purporting to be granted (whether subject to or without conditions) after the expiry of that period, or any decision given purporting to refuse consent after that expiry, shall be invalid and in those circumstances the Agency may proceed to grant the licence concerned as if the
- (3) Subject to subsection (4), a consent under subsection (1) may be granted subject to or without conditions and if it is granted subject to conditions the Agency shall include in the licence or revised licence concerned conditions corresponding to them or, as the Agency may think appropriate, conditions more strict than them.
- (4) The conditions that may be attached to a consent by a sanitary authority under this section are the following and no other conditions, namely conditions-
 - (a) relating to-

requirements of subsection (1) had been satisfied.

- (i) the nature, composition, temperature, volume, level, rate, and location of the discharge concerned and the period during which the discharge may, or may not, be made,
- (ii) the provision, operation, maintenance and supervision of meters, gauges, manholes, inspection chambers and other apparatus and other means for monitoring the nature, extent and effect of emissions,
- (iii) the taking and analysis of samples, the keeping of records and furnishing of information to the sanitary authority,
- (b) providing for the payment by the licensee to the sanitary authority concerned of such amount or amounts as may be determined by the sanitary authority having regard to the expenditure incurred or to be incurred by it in monitoring, treating and disposing of discharges of trade effluent, sewage effluent and other matter to sewers in its functional area or a specified part of its functional area,
- (c) specifying a date not later than which any conditions attached under this section shall be complied with,
- (d) relating to, providing for or specifying such other matter as may be prescribed.
- (5) A sanitary authority may request the Agency to review a licence or revised licence to which this section relates-
 - (a) at intervals of not less than 3 years from the date on which the licence or the revised licence is granted, or
 - (b) at any time with the consent, or on the application, of the person making, causing or permitting the discharge, or
 - (c) at any time if-

- (i) the sanitary authority has reasonable grounds for believing that the discharge authorised by the licence or revised licence is, or is likely to be, injurious to public health or is likely to render the waters to which the sewer concerned discharges unfit for use for domestic, commercial, industrial, fishery (including fish-farming), agricultural or recreational uses or is, or is likely to be otherwise, a serious risk to the quality of the waters,
- (ii) there has been a material change in the nature or volume of the discharge,
- (iii) there has been a material change in relation to the waters to which the sewer concerned discharges, or
- (iv) further information has become available since the date on which the licence or revised licence was granted relating to polluting matter present in the discharge concerned or relating to the effects of such matter, and the Agency shall consider and may comply with such request and shall have regard to any submission on the matter received from the sanitary authority.
- (6) In this section, a reference to a sanitary authority shall be construed as including a reference to any person acting on behalf of or jointly with a sanitary authority.

Toring etion purposes only and other use.
