Reg. No. P1014-01**

Dear Ms. Richards,

Please find enclosed the HSE consultation report in relation to the above proposal.

If you have any queries regarding any of these reports, the initial contact is Mr. Noel Donnelly, Principal Environmental Health Officer, who will refer your query to the appropriate person.

The following HSE departments were made aware of the consultation request for the proposed development on 9<sup>th</sup> March 2015:

- Emergency Planning
- Estates
- Health Protection

\*Please see response from Emergency Planning attached.

### **Environmental Health Report**

The EH service response to the proposal is in the attached consultation report.

- The assessment is based solely on an assessment of documentation submitted to this office on 9<sup>th</sup> March 2015
- Environmental Health were/were not included at the Screening / Scoping stage of this application

- All commitments to future actions including mitigation and further testing have been taken as read and all data results have been accepted as accurate.
- No additional investigations / measurements were undertaken.
- This report refers only to those sections of the documents which are relevant to the HSE.

**We have reviewed the EIS under the following specific areas:**

- Description of Facility
- Air
- Noise
- Water
- Interaction of the Foregoing

\*Other areas were reviewed in less detail.

All correspondence or any queries with regard to this report including acknowledgement of this report should be forwarded to this office.

Yours Sincerely,

Noel Donnelly

**Planning Authority:** Fingal County Council

**Reference Number:** P1014-01

**Applicant:** Pacon Waste & Recycling Ltd, 4F, Fingal Bay Business Park, Balbriggan, Co. Dublin

**Proposed Development:** Pacon intends to apply for planning permission and a revised Waste Permit to increase the amount and types of waste accepted at the facility to 49,950 tonnes/year, amend the acceptance and operational times to allow for 24/7 operations and introduce a new waste processing line to manufacture solid recovered fuel. The changes do not require any construction works or alterations to the existing site layout and drainage systems. All waste processes will continue to be carried out inside the building.

## GENERAL INTRODUCTION

This report only comments on Environmental Health (EH) Impacts of the proposed development as outlined in this EIS and the adequacy of the EIS from an EH viewpoint.

We have made observations and submissions on the following specific EH area;

- Noise

## ASSESSMENT OF NOISE

The EHS recommends that other units within the industrial estate (Fingal Bay Business Park, Balbriggan, Co. Dublin) should be considered as possible Noise Sensitive Locations. For this reason, the acceptable noise levels should be at the location/site boundary as per EPA Guidance Note for Noise: Licence Applications, Surveys and Assessments in Relation to Scheduled Activities (NG4).

Dear Colleagues,

Thank you for the associated files in relation to the above application. I note from your email that Public health and Environmental health will also be commenting from their respective view points, from an Emergency Management point of view our office can see no reason that would require our input at this time. However I would request that concerns (if any) raised by my colleagues in Public health and or Environmental health could be forwarded to this office in case we need to review our position.
