Subject: Ormonde Organics Limited, Portlaw, Co. Waterford

Dear Eva,

As per our phone discussion yesterday morning, please note that Ormonde Organics Limited, Portlaw, Co. Waterford current waste facility permit reference number **WFP-WD-13-0001-01** for the reception, storage and biological treatment of biowaste.

Ormonde Organics submitted an AER in 2015 in relation to the tonnages of waste received during 2014. The total sum of industrial waste received was 7,477.00 tonnes.

In regards to your query on surface water monitoring at facility, I have reviewing the files and Ormonde Organics Limited have not submitted annual surface water monitoring results to date.

Regards,
Liam
