I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay. I use the bay for watersports which is already unable to cope with overflow effluent in heavy rains due to drainwater. Dublin bay has worked very hard for a Blue flag which just means it's acceptable to swim in. Please be remembered for taling this issue in the right direction. A sustainable clean direction.  
Andy
