I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay. As a Scuba Diver for the last 20 years I have a understanding of the delicate balances within nature that exist. This delicate balance, I believe, would be adversely affected and damaged beyond repair with the dredge waste being dispersed into the bay. I also have concerns of the affect this this proposal will have on our coast line and to the fishing and tourist industry.

Yours sincerely,

Gary O Hagan
