I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay.

I write to you to express my concern and opposition to the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into the UNESCO biosphere of Dublin Bay.

This is Ireland's only designated biosphere. It has particular significance for our wildlife, recreational activities and brings hundreds of thousands of visitors to the area each year. It is crucial that this area is protected from potential harm caused by the dumping this amount of dredge waste.

Yours sincerely,

Gerry Murphy
