Subject: Submission Re: DAS application by Dublin Port Company

Licensing | Environmental Protection Agency licensing@epa.ie

I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay.

In particular I ask you to protect the reality that Dublin Bay contains Ireland's only UNESCO biosphere - an area which is uniquely part of a world capital and which thousands of visitors, Irish and International to enjoy the rich and diverse wildlife.

I would also have thought that in view of global warming you would be thinking more about protection for Dublin from flooding than laying down more material in the bay.

Please, as a native Dubliner, who loves the bay and the amenity it provides do not allow this dredging to take place.

Yours sincerely,

mary eldin
