I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay.

The idea that Dublin Port Company would be allowed to dump potentially toxic dredge spoil in a UNESCO Biosphere and area of outstanding natural beauty is frankly unbelievable. The water quality in the area will be significantly impacted, particularly with the transport and re-suspension of sediment. This will further impact the wildlife and fisheries in the area as well as tourism and leisure activities for those who live in and around the bay.

Dublin Bay is my home and community and I strongly object to this application by Dublin Port Company and urge you to reject.

Yours sincerely,

Pauhla McGrane
