Subject: Submission Re: DAS application by Dublin Port Company

Licensing | Environmental Protection Agency licensing@epa.ie

I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay.

If the dredging is necessary, somewhere else has to be found to put the waste. The argument for dredging is economic. The health of the bay is in the long-term economic interest of the city, perhaps especially for the cruise ships at which the dredging is targeted.

Yours sincerely,

Iain McMenamin
