Subject: Submission Re: DAS application by Dublin Port Company

Licensing | Environmental Protection Agency licensing@epa.ie

I wish to register my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay.

While I fully understand the need to dredge Dublin Port on a regular basis, but every effort should be made to ensure that the dumping is undertaken in an environmentally friendly manner and in the best location. This does not appear to be the case in your proposal.

We all have a responsibility to future generations to ensure that Dublin Bay is maintained to the highest possible standards.

I live in the local area and I am a regular participant in the activities that Dublin Bay provides us all.

Yours sincerely,

Paul Weldon
