I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay.

In time this waste will eventually be washed back to shore. It will also have a lethal effect on wildlife above and below the water. All of this in an area of great beauty and such a wonderful amenity to the people of Dublin City. Yet again Dublin Port Authority are trying to destroy our bay and it's environment and wildlife, shame on them. This madness must be stopped now!

Yours sincerely,
