Subject: Submission Re: DAS application by Dublin Port Company

Licensing | Environmental Protection Agency [licensing@epa.ie](mailto:licensing@epa.ie)

I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay. The Dublin Bay Area both north and south of the city provides the residents of the city and those who visit with a very special amenity where they can walk, run, relax, swim, sail, breath, wind and kite surf, absorb and admire nature, fish, bird watch and work. It provides endless hours of pleasure and employment. It is a gateway to the country and our capital city and deserves to be respected and protected. This waste will increase levels of pollution, damage the natural habitat and increase the level of risk to those who enter the waters.

Yours sincerely,

Gerard Moore
