Subject: Submission Re: DAS application by Dublin Port Company

Licensing | Environmental Protection Agency licensing@epa.ie

I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay.

I am a Bull Wall swimmer and 73 yrs old. I notice that a sign indicative that the area south of is not a designated swim area has recently been erected.

Why then are there five shelters on this side as against two on the other side? This area has been used and enjoyed for swimming by generations. It is imperative that this much utilised facility continue to be optimised and enjoyed. Any activity which would impinge on this already fragile environment must be resisted.

So to all concerned - hands off our traditional, much appreciated pursuits and environment.

Yours sincerely,

Frank Fitzpatrick
