Subject: Submission Re: DAS application by Dublin Port Company

Licensing | Environmental Protection Agency licensing@epa.ie

I write to you to express my concern and opposition to the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay. As a homeowner on Seafield Rd for 40 years, paying taxes charges, and previously rates, I object to unilateral action by Dublin Port to damage our environment here. This is only the latest of many such attempts by the Port Co and City council to spoil our locality. Think of the attempt to fill in the bay opposite the Promenade, also the attempt to run a high overground sewer along the Promenade, and another, the latest attempt to remove the Fairview Footbridge. All crackpot schemes proposed by faceless officials to suit themselves and pillage the Clontarf environment. As one who walks every day along the foreshore, and many days the beach, and enjoys boating in the bay, I deplore the misguided scheme to dump these colossal quantities of mud and spoil inside the Bay. I request this latest attempt to vandalise our surroundings be modified or dropped immediately.

Yours sincerely,

John F Logan
