Subject: Submission Re: DAS application by Dublin Port Company

Licensing | Environmental Protection Agency [licensing@epa.ie](mailto:licensing@epa.ie)

Dear Sirs

I write to you to express my concerns and my opposition to the recent proposal by Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste deposited into Dublin Bay. If permitted to proceed, this proposal will have catastrophic effects on the biosphere of Dublin Bay and its surrounding environment with concomitant impact on wildlife and recreational activities for the population of our capital city. Dublin Bay has a long history of re-generation and there has been some success in tackling pollutants and harmful substances to ensure good water quality and a clean environment for migratory birds. Please help to continue to improve standards for the good of all by stopping this waste project proposal immediately. Yours sincerely, Teresa O'Mahony
