Co. Kerry

Tel: (066) 7184981/7184992  
Fax: (066) 7184980

Subm No.1.

Ms. Liz Leacy,  
Programme Officer,  
Environmental Licensing Programme,  
Office of Climate,  
Licensing and Resource Use,  
PO Box 3000,  
Johnstown Castle Estate,  
Co. Wexford.

Date. 31<sup>st</sup> October 2015.

Type of Consultation: Environmental Licence.

Reference Number: EPA P1031-01 EHS 0384.

Applicant: Mr Colm Ryan.

Facility Location: Nantinan, Milltown, Co. Kerry.

Class & Nature of Activity: 6.2: The rearing of pigs in an installation where the capacity exceeds – (a) 750 places for sows or (b) 2,000 places for production pigs which are each over 30kg.

Dear Ms. Leacy,

In response to the notification of this application, the following HSE departments were made aware of the application on the 2<sup>nd</sup> October 2015.

- Emergency Planning – Peter Daly.
- Estates – Helen Maher, Estates Manager – Environmental Services.
- Assistant National Director for Health Protection – Kevin Kelleher / Marie Woods.
- CHO – Ger Reaney.

No consultation reports have been received from the above departments at the time of issue of this correspondence.

This IPPC Licence was assessed with respect to Environmental Health (EH) Impacts of the activity as outlined in the application. The assessment consisted of a study of the application and associated correspondence and documentation on the EPA website.

A site visit was conducted on 29<sup>th</sup> October 2015.

No additional measurements / investigations were undertaken.

No complaints in relation to the past or present operations at this facility have been received by this department regarding this operation.

During my site visit it was noted that odours at the site, particularly at the Milltown side of the operation were evident. This was highlighted to the applicant who informed me that this was previously more pronounced but as a result of upgrades to the facility it has been reduced and will be further reduced as a result further housing upgrades. Odour levels from the facility must be such so as not to cause undue nuisance or annoyance to sensitive receptors in the area or will not interfere with the amenity outside the boundary of the site.

Provided that the measures as outlined in the support documentation submitted with this licence application ( EIS ) which I accept in good faith as true and accurate are fully adhered to and the odour situation as previously mentioned is closely monitored and attended to as necessary the Environmental Health Department of the HSE South (Kerry) would not have any general concerns with this licence application which is currently being considered by the EPA.

Yours sincerely,

---

**BRENDAN DUNNE**  
**Senior Environmental Health Officer**

**Liz Leacy**
