Dear Aoife,

Further to your letter of 27/1/16, I wish to make the following observations with regards to the renewing of the ENVA licence, registered number W0184-02, that is currently under review by the EPA.

The odour emissions from the ENVA oil treatment plant are a persistent and alarming threat to the quality of my lifestyle inside and outside my home.

This smell is of an overbearing, sickly sweet and oily nature.

On inhaling this odour I have a general feeling of nausea and being unwell.

I have often left my home particularly during the summer months as it can be unbearable.

Yours sincerely,
Marie Conway.
