P1038-01	Sylvester & Dorren Quinn	Tirnaneill, Monaghan, Co. Monaghan.

Dear Sir/Madam,

To adequately screen for effects on a Natura Site it is mandatory that a map of the spread lands be included in the application.

The DAU states in the attached submission the following;

The applicant states that a Nutrient Management Plan, and therefore a map of the proposed manure spread lands is no longer legally required. However it should be noted that under Appropriate Assessment (AA) Screening for the Birds and Habitats Regulations 2011 a map of the spread lands is required to ensure that there is no significant negative effect on any Natura 2000 site (i.e. SAC and SPA sites) from this proposal. The spread lands should be subject to Appropriate Assessment screening with particular reference to potential effects on the water quality of the Lower River Shannon SAC 2165

Yours faithfully

Peter Sweetman

Re: Notification to the Minister for Arts, Heritage and the Gaeltacht under Article 28 (Part 4) or Article 82 (Part 8) of the Planning and Development Regulations, 2001, as amended

Proposed Development: Planning Application 15573 by Boherash Pig Breeders for the demolition of some existing fattening dry sow and farrowing and weaner houses and replace with 6 new fattening houses and a new stage 2 house and associated site works at Kilconlea Upper, Abbeyfeale.

A Chara,

On behalf of the Department of Arts, Heritage and the Gaeltacht, I refer to correspondence received in relation to the above.

Outlined below are heritage-related observations/recommendations of the Department under the stated heading(s).

Nature Conservation

The applicant states that a Nutrient Management Plan, and therefore a map of the proposed manure spread lands, is no longer legally required. However it should be noted that under Appropriate Assessment (AA) Screening for the Birds and Habitats Regulations 2011 a map of the spread lands is required to ensure that there is no significant negative effect on any Natura 2000 site (i.e. SAC and SPA sites) from this proposal. The spread lands should be subject to AA screening with particular reference to potential effects on the water quality of the Lower River Shannon SAC 2165.

It should be noted regarding the rodent control document supplied that glue traps or glue boards (mentioned in same) are illegal under the Wildlife Act.

You are requested to send further communications to this Department's Development Applications Unit (DAU) via *eReferral*, where used, or to manager.dau@ahg.gov.ie; if emailing is not possible, correspondence may alternatively be sent to:
