12th May, 2016

Dear Sir/Madam,

I have been asked by An Bord Pleanála to refer to the above mentioned appeal and your letter dated the 26th of January, 2016 requesting comments in relation to an application for an Integrated Pollution Prevention and Control licence or a review of a licence pursuant to the provisions of section 173A (4) of the Planning and Development Act 2000, as inserted by Article 8 of the European Union (Environmental Impact Assessment) (Integrated Pollution Prevention and Control) Regulations 2012.

Enclosed, please find a CD copy of all available documentation relating to an EIA carried out by An Bord Pleanála in relation to this site.

In respect of the Environmental Protection Agency's request for observations and having regard to the specific queries raised in your letter, the Board would wish to comment as follows:

- (i) Having carried out an initial inspection of documents on the Agency's website, the Board considers that the activity, subject of the current IPPC licence application, would appear to be substantially different in a number of respects from that for which planning permission was granted, subject to conditions, by the Board on the 7th of May, 1996 under An Bord Pleanála reference number PL13.097889. The following matters are relevant:
 - Under PL13.097889 (95/1312) planning permission was granted for a galvanising plant stated to have throughput of 8-10 tonnes per week initially – maximum capacity was not specified. The area devoted to galvanising was approximately 250 square metres. An EIS was submitted.

If you have any queries in relation to this matter, please contact the undersigned officer of the Board.

Please quote the above mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Eddie Brennan
Executive Officer
