I would like to make a complaint at the above address. I cannot open windows or doors. Feeling very sick with headaches due to smell and eyes burning. Unable to hang out washing.

I know this is an ongoing situation but I feel the smell is much stronger than it has been over the years.

I also know he is not going to get licence until something is done about the smell but when will this happen.

I do not want to spend the next few months feeling sick as I have to work full time and unable to sleep.

King regards
