I write to you to express my concern and opposition at the recent proposal of Dublin Port to undertake a dredging project that will see 9.7 million tonnes of dredge waste into Dublin Bay. As frequent recreational users of Dublin bay, my family, which included two young boys who love water sports and I strenuously object to the proposed project. It would have an immediate and material impact on the quality of the marine environment and thus reduce our quality of life.

Yours sincerely,

Karl Rankin
