Johnstown Castle Estate
Wexford.

27 June 2016

RE: W0291-01 Forge Hill Recycling Limited.

A chara

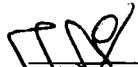

I refer to the above mentioned application.

IFI would request that should permission be granted in this case the following conditions would apply:

A monitoring regime is put in place to ensure the operations do not impact on the adjoining stream.

There is no interference with, bridging, draining, or culverting of the adjacent stream or any watercourse, its banks or bankside vegetation to facilitate this development without the prior approval of IFI.

Yours sincerely,

Michael McPartland
Environmental Officer
