

Site Location Map.

1. View of existing Factory: To the left new Lairage and Stomach Gantry Press is proposed, in the middle new Green Offal Room is proposed, at the very right hand of the picture new canteen and offices are proposed

Sightlines looking southwards along the N2 (towards Dublin)
from the L1013 / N2 Junction

Sightlines looking Northwards along the N2 (towards Slane)
from the L1013 / N2 Junction

Looking Eastwards from the Junction of the Windmill Rd and
the L1013

Looking westwards from the Junction of the Windmill Road
and the L1013

3. Junction of Site Access and Windmill Rd Looking South towards the N2

2. Junction of Site Access and Windmill Rd Looking North

4. View of the structure and condition of the Rd to the North of the Site Access

5. View of the structure and condition of the Road to the south of the site heading toward the N2

6. Existing Office and Canteen building to be replaced

7. Location of proposed new green offal room on the east elevation of building

8. Location of new Liarage Area to the south of main factory

9. Existing Stomach Press Gantry to be replaced

. Cleaning and hosing down the Lairage Area

Collection Area within the Lairage

. Attenuation tank for the collection of effluent. Effluent from here is pumped up to the settlement lagoons

. Drainage system to the south of the lairage

10. Lagoon Areas to the north of the plant (please note that the lagoon areas are actually covered, the water in the picture is merely surface water collecting on top of the lagoons)

11. View of the lagoon areas and the integrated wetlands system to the immediate north of lagoon, which were used to treat wastewater prior to the construction of the lagoons

Agitator used to treat/ keep fresh the wastewater in the lagoons

Lagoon No.1 currently empty

13. New pump for which planning permission was granted SA/140210. It is apparent from the photo that a pump house has not been constructed. The pump has been protected by wooden casing .

For inspection purposes only.
Consent of copyright owner required for any other use.

12.Area where wastewater is tankered of site for treatment at a MWWTP

14. Looking southwards across site in the vicinity of borehole no. 3. The nearest houses to the site are indicated on the very left of the picture facing onto the Windmill road.

15. Existing dwelling on site currently used to accommodate workers at the plant. Change of use is sought to office use, it is also proposed to regularise the staff car parking to the front of the structure.
