Attachments: Copy of Mullaghcrone AER 2014 V 1.xls; 2013 aer.pdf

Importance: High

Good morning Ewa,

I have found AER's for 2013 and 2014 on my computer for Roadstone, Mullaghcrone. I asked Leonard Grogan to compile the 2015 on the NWCPO website. He has replied to say that he shall.

Regards,

James.

Co. Meath.

20th March 2014.

Re: Condition No. 3.7 of Waste Permit WFP/MH/11/0003/01

Condition No. 3.7

The permit holder shall submit to Meath County Council an Annual Environmental Report (AER) for the preceding calendar year by no later than the 28th February of each year.

- (a) The tonnages and EWC code for the waste materials imported and/or sent off site for disposal/recovery during the year.*
- (b) The names of the agent & carrier of the waste, and their waste collection permit details.*
- (c) Quantity and type of all wastes accepted and disposed of at the facility during the year.*
- (d) Details if any loads rejected at the facility during the year.*
- (e) Reportable incidents.*
- (f) The destination of all wastes accepted and disposed of at the facility during the year.*

Dear Ms. Conneely,

This is a summary of the activities for WFP/MH/11/0003/01 and is compiled from information between the date 1st January 2013 to week ending 31st December 2013 for recycling or reclamation of other inorganic materials at Mullagherone Quarry, Donore, Co. Meath.

Please find enclosed all relevant documents as required.

We would be grateful if you could confirm receipt of this submission.

Regards,

Leonard Grogan
Roadstone Wood Recycling Manager.

(A) The tonnages and EWC code for the waste materials imported and/or sent off site for disposal/recovery during the year:

The composition of the material recycled at the above facility conforms to the following European Waste Catalogue Code of reference:

17 01 01	Concrete
17 01 02	Bricks
17 01 03	Tiles and ceramics
17 03 02	Bituminous Mixtures other than those mentioned in 17 03 01
17 04 05	Iron and steel
17 01 07	Mixture of concrete, bricks, tiles, ceramics other than those mentioned in 17 01 06

As per Condition 5.1 of the said waste permit, no other waste materials are accepted at the site.

The C&D waste recycled in Mullaghcrone Quarry is made up of both internal and external material.

The internal material is made up of over ordered and returned ready mixed concrete, any off spec block and paving material.

The external material is as above but is delivered in by existing customers.

The volumes recycled in the dates for which this report covers are as follows:

17 01 01 Concrete	1219.68 Tonnes
17 01 07 Mix concrete, tile, brick & ceramic	8438.39 Tonnes

(B) The names of the carriers or their agents are recorded at the facility. It is not practical to list all of these in this document. All records are kept on file for a minimum of five years as documented in our ISO: 9001:2000 Quality Management System.

To this end any member of staff from Meath County Council Environmental Department is free to examine any customer file on our system in relation to the recycling business.

(C) **Quantity & Type of all wastes accepted and disposed of at the facility during the year**

Please see section A

(D) **Rejected Loads**

No loads were rejected. Some loads were rejected before they entered the facility due to soil or other extraneous material in the load.

(E) **Reportable Incidents**

There were no reportable incidents during the year.

(F) **Destination of all wastes accepted and disposed of at the facility**

Re-processed material sold back to industry 0 Tonnes

Due to the contract nature of our business, (i.e. recycled concrete is ordered on a daily basis at our switch board and collected or delivered direct to construction sites) it is not practical to list all the various construction sites.

our recycled material was delivered to last year and present them in this summary report. All records are kept on file for a minimum of five years as documented in our ISO: 9001:2000 Quality Management System.

To this end any member of staff from Meath County Council Environmental Department is free to examine any customer file on our system in relation to the recycling business.

Details of waste recovered at the facility

There was no waste recovered at the facility during the reportable period.

- 3.7 **In addition, the permit holder shall include in the report, a written summary of compliance with all of the conditions attached to this permit.**

It is to the best of our knowledge that we the permit holder are in compliance with the Conditions as set by Meath County Council for the said waste permit WFP/MH/11/0003/01.

In compliance with Condition 6: Environmental Monitoring please find enclosed a summary of our monitoring of dust deposition, noise and fumes.

Dust Deposition

As indicated in the Waste Permit Application to Meath County Council the recycling facility will undergo regular dust monitoring. The method for determining the level of dust emitted from the recycling facility is in accordance with the DIN method: dust levels shall not exceed the normal standard for similar developments specifically 350mg/square/metre/day. The dust monitoring results are attached to this report below.

Noise Report

A noise survey was carried out during the period to which this report pertains. This noise survey accompanies this report.

Fumes

A diesel run front end loading shovel operates in a shared capacity between the recycling yard and other quarry activities.

This machine was serviced regularly by the manufacturers to optimise efficiency and reduce emissions.

Noise Monitoring Report:

		Date: 18/06/2013			
		Sheet:			
Project Name: Mullaghcrone		By: Collin Doyle			
Location		Noise Monitoring			
Client: Roadstonewood Ltd					
Location	Value:		Emission Limit	Unit	Notes
	60min L(A)eq	15min L(A)eq			
N1	53.4 18.8 56.7		55 dBA	dB(A)	
N2	54.3 18.3 57.0			dB(A)	
N3	54.9 17.2 58.0			dB(A)	
N4	51.2 12.0 58.4			dB(A)	
<p>Note: L(A)eq 190% 110%</p> <p>Note: The L90% were below 55 dB(A). This indicates that the noise at 90% of the time is below the Planning limits.</p> <p style="color: red; transform: rotate(-45deg); opacity: 0.5;">For inspection purposes only.
