Subject: re application by Arklow Energy LTD

I wish to raise my concerns regarding the removal of large volumes of sand from the area known as the Arklow bank where the wind mills are , I am also worried at the way they were so precise in the amount they wish to remove by simply pumping the sand these same sand banks control the Tidal region of the Arklow area as things stand, those of us who live in the lower part of Arklow cant get our homes insured against flooding, any removal of sand from the Arklow banks will leave us and our neighbours very vulnerable to flooding until I can get it in writing that Arklow Energy LTD will take full responsibility for any increase in the flooding of our homes

I wish to lodge my obgection to the removal of any such sand from Arklow banks area
