Dear Ms. Oglesby,

I refer to the to the above Industrial Emissions Licence application review, application Registration number: P0082-03. In this matter the Health Service Executive, Environmental Health Service has the following observations.

With regards to the report issued by Niamh O'Donoghue EPA Inspector on foot of site inspection of 13th September 2016, non-compliances were noted concerning:

Non-Compliance - Hydrostatic testing not in place. (Condition 6.10) 5.1.

Non-Compliance - Un-bunded areas (Condition 3.6.1) 6.1

The above points remain outstanding and we would be concerned that these issues be addressed.

Yours sincerely,
