Noeleen,

I have been asked to respond to your consultation in regard to the above.

Planning permission (17/6372) has been granted to KMK Metals for the following development:

Intensification of use at this site from 10,000 tonnes of WEEE and metal waste per annum to 50,000 tonnes of WEEE and metal waste per annum and installation of a second external air handling unit, (2) construct a new canopy roof (2,715m) covering to existing open yard to west side of the existing building with open sides to front (south) and rear (north) and part-open side to west side with minor modifications to feature cladding of existing building to accommodate the proposed new canopy roof (3) Weighbridge Station building (35m) to western side of the existing building with 2 No. Weighbridges (4) MV Substation Building (14m) to eastern side of and adjoining the existing building (5) New vehicular and pedestrian entrance to site from R446, including modifications to existing boundary fence and new gates and rearrangement of existing vehicle parking on the site (6) Proposed new signage including 4.0m high totem sign adjacent to main road and new plinth signage at new entrance (7) two 10,000L overground rainwater harvesting tanks to rear of site (8) Proposed minor modifications to existing underground services and all associated underground and overground site works. An Environmental Impact Statement Assessment has been prepared and will be submitted with this application. This development will also require an Industrial Emissions Licence from the Environmental Protection Agency

The Planning Authority does not consider that this permission included ELV's. The Waste License application on your website has been viewed and ELVs (16 01 04*) is not listed on waste items proposed to be accepted at the site. On this basis the Planning Authority considers that the applicant has planning permission for this activity.

All EIA documents are available on the Council's website. From the link below search applications and enter planning reference number 17/6372.

5 June 2018

Reg. No. P1076-01

Notification under Section 87(1E)(a) of the EPA Act 1992, as amended.

Dear Director of Services

In accordance with the provisions of Section 87(1E)(a) of the EPA Act 1992, as amended, you are being notified that an application for a licence, to which Section 87 (1B)(b)(i) of the EPA Act 1992, as amended, applies, was received by the Agency on 27 April 2018. The details of the application are set out below:

- **Name and address of applicant:** KMK Metals Recycling Limited, Cappincur Industrial Estate, Daingean Road, Tullamore, County Offaly.
- **Location of facility:** Moate Road, Kilbeggan, County Westmeath, N91 PT78
- **National Grid Reference:** E2327 N2357
- **Class and Nature of the Activity:** 11.4(b)(iv)– Recovery, or a mix of recovery and disposal, of non-hazardous waste with a capacity exceeding 75 tonnes per day involving one or more of the following activities, (other than activities to which the Urban Waste Water Treatment Regulations 2001 (S.I. No. 254 of 2001) apply): treatment in shredders of metal waste, including waste electrical and electronic equipment and end-of-life vehicles and their components;
- **Relevant Inspector:** Brian Donlon
- **Licence Application Reference No:** P1076-01
- **Planning Application Reference No:** 17/6372
- **Date planning permission granted:** 04/04/2018

A copy of the application, the Environmental Impact Assessment Report (EIAR) submitted by the applicant and associated correspondence are available for inspection by you on the Agency's website www.epa.ie.
