FAO: Noeleen Keavey,
Environmental Licensing Programme,
EPA Headquarters Po Box 300,
Johnstown Castle Estate,
County Wexford.

Re: EPA Licensing Regulations Reg. No P 1023-01 Declan Connolly, Dundrumman,
Scotstown, Co. Monaghan

Dear Noeleen,

With regard to the above application this authority advises that:

- All licensed facilities depending on off-site disposal of organic fertilisers and their agents should take account of sensitive areas identified in the County Development Plan 2013 to 2019. The licensee should demonstrate that County Development Plan objectives and policies for protection of waters are integrated into site management, landbank selection and nutrient management planning (including phosphorus application rates). The proposed use of landbanks by licensee and their agents in the catchment of water supply sources should seek approval in writing from the local authority.
- A fully traceable manure movement system for off site movement of manures is provided by licensee.
- Soiled water facilities and management practices should be adequate to prevent any discharge of contaminated waters to any watercourse.

I trust the above to be in order should you have any further queries do not hesitate to contact this office.

Yours faithfully,

Joan Ryan
Administrative Officer
Planning section
