Re: Murphy Environmental Hollywood Ltd.'s application for a hazardous waste license at Hollywood, Naul, Co. Dublin. Application no: WO129-03.

I am writing to express my distress and to firmly object to this application by Murphy Environmental Hollywood Ltd. for a license to landfill hazardous and toxic waste at Hollywood Great, Naul, Co. Dublin.

I have just completed my education in Glasgow but what is the incentive for me to move back home to live beside a toxic dump! Answer me this question 'Would you live next to a toxic dump?' I am sure the answer is NO!

My parents, _____ are local residents and landowners of property adjoining the site of the proposed toxic waste facility. I grew up on this land, spent my youth with my family farming this land, with the future hope of moving back home settling down and raising a family of my own.

This is a farming environment whose solely livelihood for generations has been to provide for their families through maintaining the land, producing healthy live-stock and crops for mass human consumption.

I cannot fathom why An Bord Pleanála would grant an application for a toxic dump when a previous application was rejected due to the health implications on local residents!

Not only will this have a detrimental impact on people's health and the environment, a toxic dump will also impact on the devaluation of land and property prices!

I appreciate that you have taken the time to read this and hope that you will consider my objection to this license.

Yours Sincerely,

Ms. H Moore
