Kilcolman, Asdee. Listowel, Co. Kerry. 8th November, 2014.

Re: Planning reg. no. 14/562. Brandon Products Ltd.

DearSir/Madam,

We wish to appeal decision by Kerry Co. Co. granting permission to increase the stack from 15 meters [which we believe there was no planning for] to 25 meters. We believe this is not a solution to malodour as it would carry it further into the atmosphere. In addition the stack is a visual polution on the skyline. The pictures included in the planning application are from a convenient location where it does not appear noticeable, however if one moves 100 meters in any direction this monstrosity will be clearly visible from all angles.

On track record of this facility to date in cognisance on their approach to malodour, local residents have been ignored and treated with contempt. In the original planning application [ref. 063080 2006] it was stated there was no need for an E.P.A. licence for the operation, evidently not the case as they are now applying for one.

Brandon products have operated their current guise for the past six years, five of which they have been in complete denial that there was any malodours eminating from the plant and dismissed local householders concerns with ridicule.

Our home is less than 160 meters from this plants

We believe Brandon products are in breach of their original planning

Condition No. 9[V1] & Condition no. 12[11].

Also letter from Paul Mullins Brandon products to Kerry Co. Co. 1st.March2007stated that the plant was designed in such a way that there would be no risk of malodours, obviously not the case.

Yours truly, Jewy Course
