RE: EPA Licence S0031-01 by Malahide Marina Village Ltd for Dumping at Sea Permit application at Malahide Estuary.

A chara,

Please find the underwater archaeology recommendations of the Department of Culture, Heritage, and the Gaeltacht for the above mentioned licence application.

There are no objections to the proposed development proceeding. However, should material of an archaeological nature be discovered during the course of the dredging operations all dredging works should stop and this department must be contacted immediately. Where archaeological material is located the developer shall be advised by this Department with regard to any necessary mitigating action (e.g. preservation in situ, dive and/or geophysical survey or excavation).

Reason: To ensure the continued preservation (either in situ or by record) of places, caves, sites, features or other objects of archaeological interest.

Mise le meas,

Connor Rooney
Clerical Officer
